MANDATORY PRACTITIONER PROFILE QUESTIONNAIRE FOR LICENSED HEALTH CARE PROVIDERS

The Health Care Consumer Right-to-Know Act of 1998, T.C.A. §§ 63-51-101, et seq., requires designated licensed health professionals to furnish certain information to the Tennessee Department of Health, and is requested in this questionnaire. From the information submitted, the Department compiles practitioner profiles which the law requires to be made available to the public via the World Wide Web and our toll-free telephone line. Each practitioner who has submitted information must update that information in writing by notifying the Department of Health, within 30 days after the occurrence of an event or an attainment of a status that is required to be reported by the law. A copy of your initial or updated profile will be furnished to you for your review prior to publication. That opportunity will allow you to make corrections, additions and helpful explanatory comments. Failure to comply with the requirement to submit and update profiling information may result in a delay or denial of your licensure application and/or may result in disciplinary action against your license. The professions required to submit a profile questionnaire are:
