

CANAP March Meeting

March 16, 2010 ▪ 6:30 p.m.

212 Market Street Restaurant

Sponsored by  The Chattanooga
Heart Institute

Chest Pain

The Significance of
Patient History and
the Role of Diagnostic Testing
in Assessing Chest Pain

Presented By
Dr. William Oellerich
of
The Chattanooga Heart Institute

Dr. Oellerich is board certified in cardiology, echo cardiography, and internal medicine. He has specialized training in nuclear cardiology, diagnostic cardiac catheterization, cardiac magnetic resonance imaging, autonomic pharmacology, cardiovascular pharmacology, and echocardiography. He earned his medical degree from the University of Tennessee at Memphis while concurrently earning a doctorate in philosophy in its Department of Pharmacology.
